

## Waltraud-Lewenz-Prize 2008

The Scientific Advisory Board of the German Cancer Research Center awards the 7.500,00 € Waltraud-Lewenz-Prize to young scientists for outstanding research at the Cancer Center in the field of

**„Cancer Risk Factors and Prevention“ or  
„Diagnosis and Experimental Therapy“**

The prize will be awarded to recent research projects (work should be published or in press) of young scientists (individuals or a group of people at PhD or junior Post-doc level) at the DKFZ.

Applications or nominations should contain a copy of the published research project, a short summary (max. 1 page) explaining why this work is outstanding in the research field and why it should be considered for this award (submitted by the nominee or the head of the research group), a short CV and a list of publications from the last 5 years. Multi-author publications should contain a short explanation of the individual contribution. The applicant shall be no older than 35 years. The finalist will be selected by a selection committee of the scientific advisory board and the prize will be awarded during a scientific symposium at the DKFZ.

Deadline for applications is March 13, 2009. Please submit a complete application package (copy of the paper, statement of significance, CV and publication list of the last 5 years) to the Waltraud-Lewenz-Selection Committee (WiRa Sekretariat (M060), Im Neuenheimer Feld 581 or via email to [a.krauss@dkfz.de](mailto:a.krauss@dkfz.de)).
