

KICKOFF MEETING HELMHOLTZ ALLIANCE PRECLINICAL COMPREHENSIVE CANCER CENTER
March 14-15, 2013, Fulda

Thursday, March 14th

Start

11:30 **Hellmut Augustin**
Opening

JOINT ACTION ON HEMATOLOGICAL MALIGNANCIES

CHAIR: CHRISTIAN BUSKE / CHRISTIAN REINHARDT

11:50	Christian Buske Identification of vulnerability genes in AML leukemic stem cells (WP7)
12:15	Lüder-Hinrich Meyer (Debatin-Lab) Modification and adjustment of established leukemic therapies (WP7)
12:40	Hans-Reimer Rodewald Progenitor turnover and T cell leukemia (WP7)
13:05	Thomas Sommermann (Rajewsky Lab) Preclinical mouse models of human lymphomas (WP8)
13:30	Lunch
14:15	Jürgen Ruland Preclinical mouse models of lymphoid malignancy to dissect patho-mechanisms and target validation (WP8)
14:40	Christian Reinhardt Synthetic lethality in personalized medicine (WP9)
15:05	Henry Däbritz (Schmitt Lab) Synthetic lethality and humanized lymphoma mouse models (WP9)
15:30	Christian Buske Leukemia and lymphoma study groups (WP10)
15:45	Coffee Break

JOINT ACTION ON BRAIN TUMORS

CHAIR: PETER ANGEL / PETER LICHTER

16:15	Jan Gronych (Lichter Lab) Preclinical studies and somatic gene transfer-based mouse models for pediatric brain tumors (WP5)
16:40	Ana Martin-Villalba Patient-derived tumor initiating cells and personalized drug testing (WP6)
17:05	Hai-Kun Liu Novel glioblastoma mouse models (WP6)
17:30	Heike Peterziel (Angel Lab) Therapeutic potential of PDPN and DAMP signaling (WP6)
18:00	Round Table Discussion
18:30	Dinner

20:00 – 21:30 **BREAKOUT SESSIONS**

Friday, March 15th

JOINT ACTION ON TUMORS OF THE DIGESTIVE SYSTEM

CHAIR: THOMAS WIRTH/MATHIAS HEIKENWÄLDER

9:00	Andreas Trumpp Preclinical cancer mouse models for translation (WP4)
9:25	Hellmut Augustin Preclinical Angiogenesis Mouse Models (WP 3/4)
9:50	Roland Rad PiggyBac transposon-based genetic screening (WP1)
10:15	Dieter Saur / Roland Schmid Genetic validation of therapeutic targets and evaluation of resistance mechanisms (WP1)
10:45	Ulrike Stein Novel mouse models for colorectal cancer metastasis (WP2)
11:10	Coffee Break
11:35	Mathias Heikenwälder Novel inflammatory mouse models to decipher the role of inflammation in tumor initiation (WP2/3)
12:00	Manolis Pasparakis Novel mouse models for inflammatory signaling (WP3)
12:25	Lunch
13:30	Rainer Glauben (Sigmund Lab) HDACs as novel targets in inflammatory bowel disease and colorectal cancer (WP3)r
13:55	Thomas Wirth Novel fibroblast-specific mouse models (WP3)
14:20	Wilko Weichert Pathology platform of the PCCC
14:45	Coffee Break
15:00	Hellmut Augustin Concluding Remarks and Summary
15:30	End of Kickoff Meeting
