

Setting up eduroam on iOS end devices

1. Download `geteduroam` via the Appstore. [Link](#)

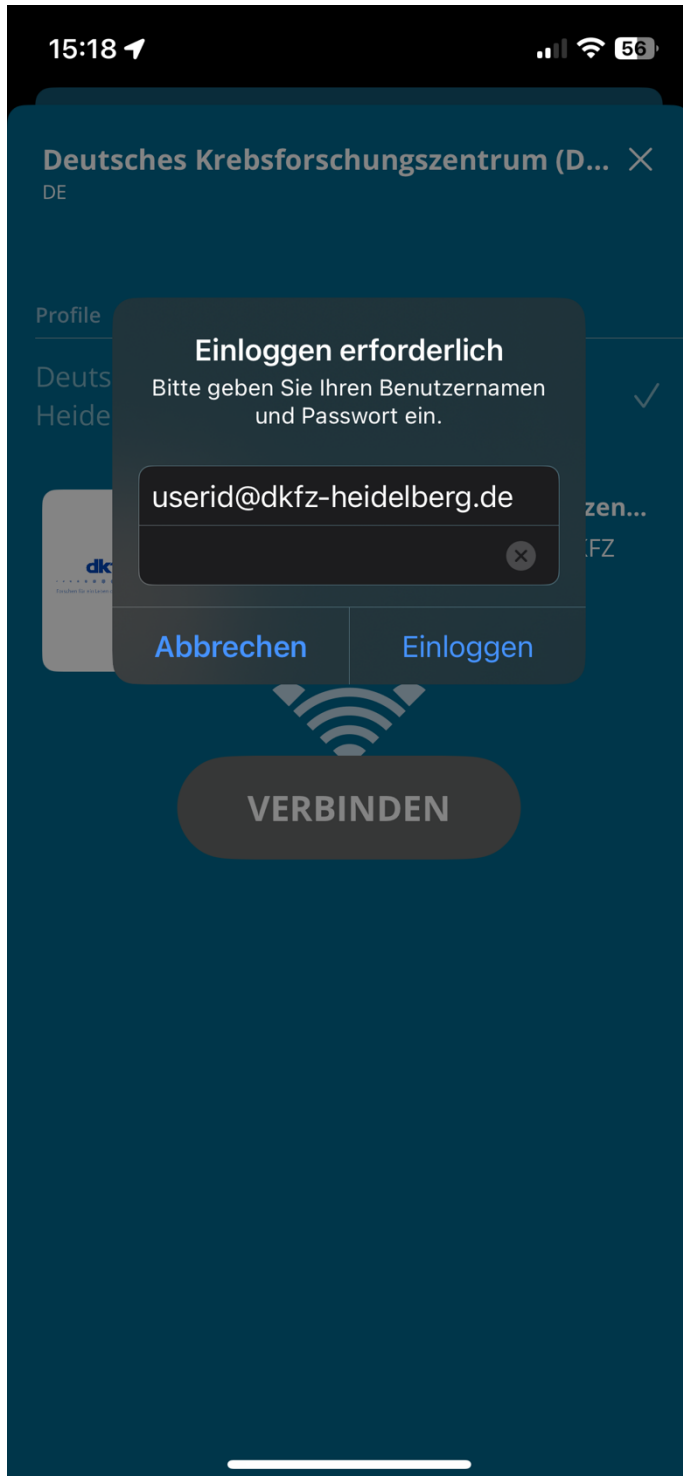

2. Open the app and search for **DKFZ**. Then select **Deutsches Krebsforschungszentrum (DKFZ)**.

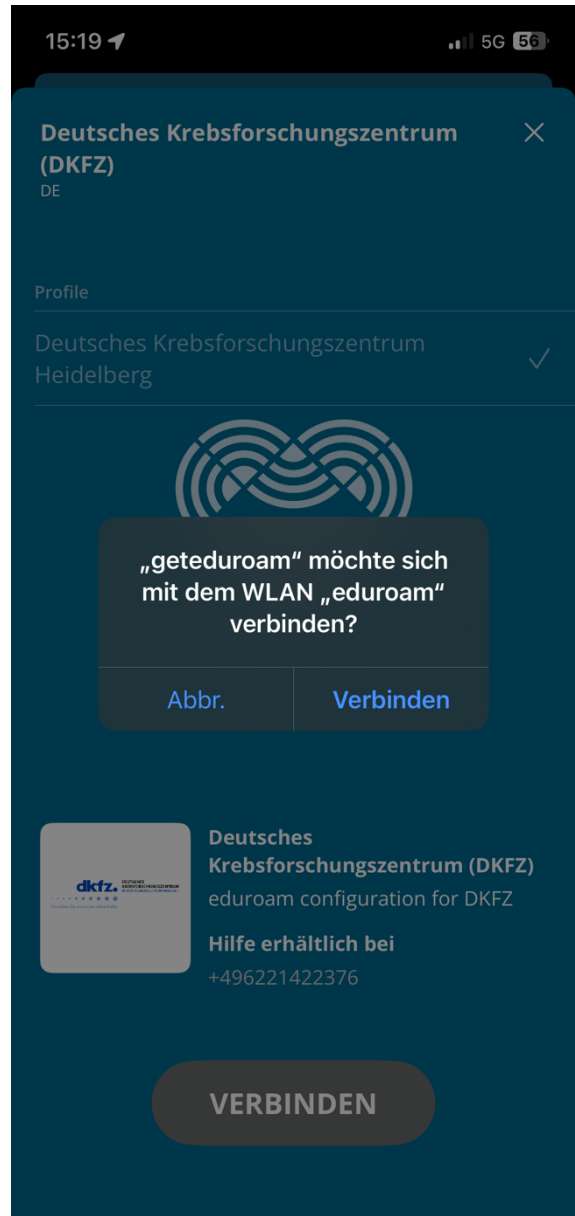

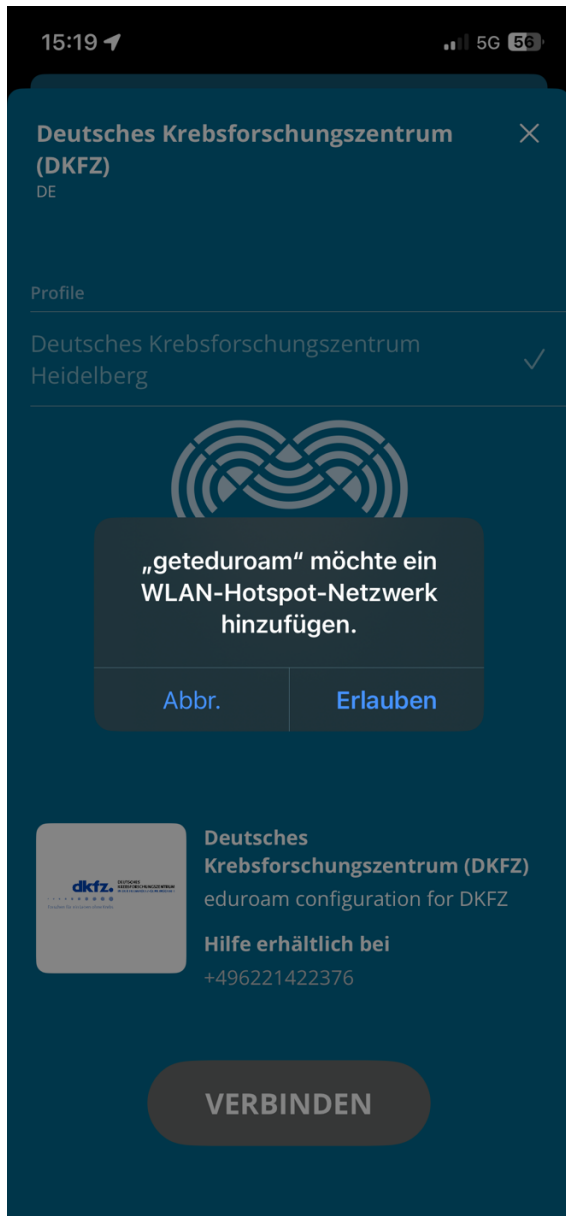

3. Fill out your username and password. Then click `login`.

The username is `userid@dkfz-heidelberg.de`, **not** the email address!

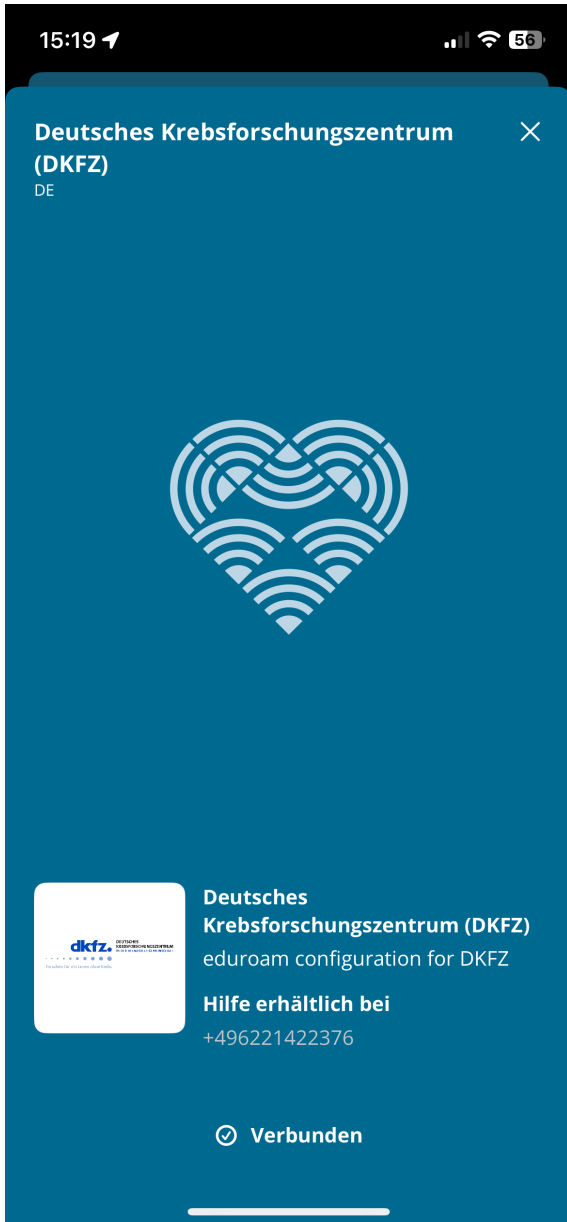

4. Allow any prompts about saving the WiFi configuration.

5. eduroam should now be set up and your smartphone should connect automatically.

The installation is now finished
