CORE FACILITY TECH-TALK

Multicolor Assay Optimization and Autofluorescence

German Cancer Research Center (DKFZ), Heidelberg

Room: H824 („Glaskasten“)

Time: 9.30 a.m. - 12.30 p.m.

- Join us to learn step-by-step how to optimize multicolor assays, and what is and how to deal with autofluorescence using Full Spectrum Profiling™ (FSP™). At the end of the talk, new features added in the recently released SpectroFlo® v4.0.3 will be introduced.
- Dr.rer.nat. Jesús Gil-Pulido. Customer Education Program Manager, (Cytek Biosciences)

Cytek® Biosciences' mission is to enable the world to improve life through scientific innovation.
