

## Seminar Series Season X: 2026

# SCIENCE @DKFZ

Thu, 29 Jan

### KICK OFF NEW SEASON

Pitches collaborative projects

Mon, 23 Feb

### PROF. DR. HEINZ-PETER SCHLEMMER (FSP E)

Fighting prostate cancer:  
imaging research from early steps to clinical guidelines

Thu, 19 Mar

### DR. SIGRID CARLSSON (FSP C)

Advances in prostate cancer screening

Mon, 20 Apr

### DR. DR. FRANZISKA BLAESCHE (FSP D)

Engineering immune cells with CRISPR

Mon, 18 May

### PROF. DR. NIELS HALAMA (FSP D)

Ovarian cancer immuno-microenvironment:  
immunometabolic orchestration via lipid-laden macrophages

Tue, 23 Jun

### PROF. DR. STEFAN WIEMANN (FSP B)

Crosstalk between tumor and stromal cells triggers a  
persister phenotype in triple negative breast cancer

Mon, 27 Jul

### PROF. DR. DR. PETER HUBER (FSP E)

Desired and adverse effects of cancer radiotherapy

Wed, 23 Sep

### DR. KAROL NOWICKI-OSUCH (FSP C)

A natural experiment in cancer initiation:  
insights from gastro-oesophageal tissues

Mon, 26 Oct

### PROF. DR. HANNELORE MONYER (FSP A)

How does inhibition support memory?

Mon, 23 Nov

### PROF. DR. JEROEN KRIJGSVELD (FSP B)

Cancer proteomics: from tissues to single cells

Thu, 17 Dec

### DR. LENA KUTSCHER (FSP B)

Neurodevelopmental principles underlying pediatric brain cancer formation

at 4:00 pm,

**DKFZ  
Communication  
Center,  
Lecture Hall**

Jointly organized by the  
DKFZ Research Programs  
(FSPs)

Everyone is welcome,  
no registration necessary!

Four 5-minute highlight  
publications will be  
presented per event by  
DKFZ junior scientists

The event is followed by  
a networking hour
